

**Wishing you a
blessed Christmas!**

In honor of the Cathedral's children, a donation to Nets4Life has been made for Christmas. Some 40 specially treated nets that will prevent the spread of malaria will be placed over beds protecting those who sleep from mosquitoes, keeping children healthy like the smiling boy on this card. This program was launched in November in the Diocese of Botswana with support from Episcopal Relief and Development, and Bishop Howe was present. Learn more about this project at www.er-d.org.

May the love of the Christ Child bless you throughout the Twelve Days of Christmas and the new year.

Father Terry
